

HELP SAVE THE TEXAS HEMP INDUSTRY

The Texas Hemp Business Council is fighting to protect legal hemp products in Texas.

New DSHS regulations eliminate consumer access to THCA products and place significant burdens on Texas hemp businesses. At the same time, federal proposals and future legislative battles continue to put the entire industry at risk.

THBC is leading the fight through litigation, advocacy, and education—but we can't do it alone.

Your donation helps defend consumer choice, support Texas businesses, and preserve access to hemp products.

Donate or become a member to help THBC continue the fight.
